English

About Me

Passionate and self-motivated Software Engineering student seeking an internship opportunity to gain industry exposure, improve technical expertise, and contribute innovative solutions to real-world challenges.

PROJECTS

Smart Family Financial Management System (Android)

- Technologies: Java, Android Studio, Firebase Authentication, Cloud Firestore
- Developed an Android application to track income, expenses, loans, and payment schedules with secure user authentication and real-time cloud database integration.

SkillPro Institute – Web Application

- Technologies: PHP, MySQL, HTML, CSS, JavaScript, VS Code
- Built a database-driven web system for course management and online student registration with search functionality, inquiry handling, and admin dashboard features.

SOC-Based Order Management System (Cozy Comfort)

- Technologies: C#, ASP.NET Core Web API, ASP.NET Core MVC, SQL Server (SSMS), Swagger
- Developed a Service-Oriented Architecture (SOA) solution with RESTful APIs and an MVC client application to manage orders between Manufacturer, Distributor, and Seller using CRUD operations.
